A clearer view of your whole day.

Graphite depth. Frost clarity. One considered system for food, training, body and your private logbook.

Design checkpoint: full-screen theme comparisons. Complete scrollable boards are preserved on tall spreads so content stays readable without cropping.

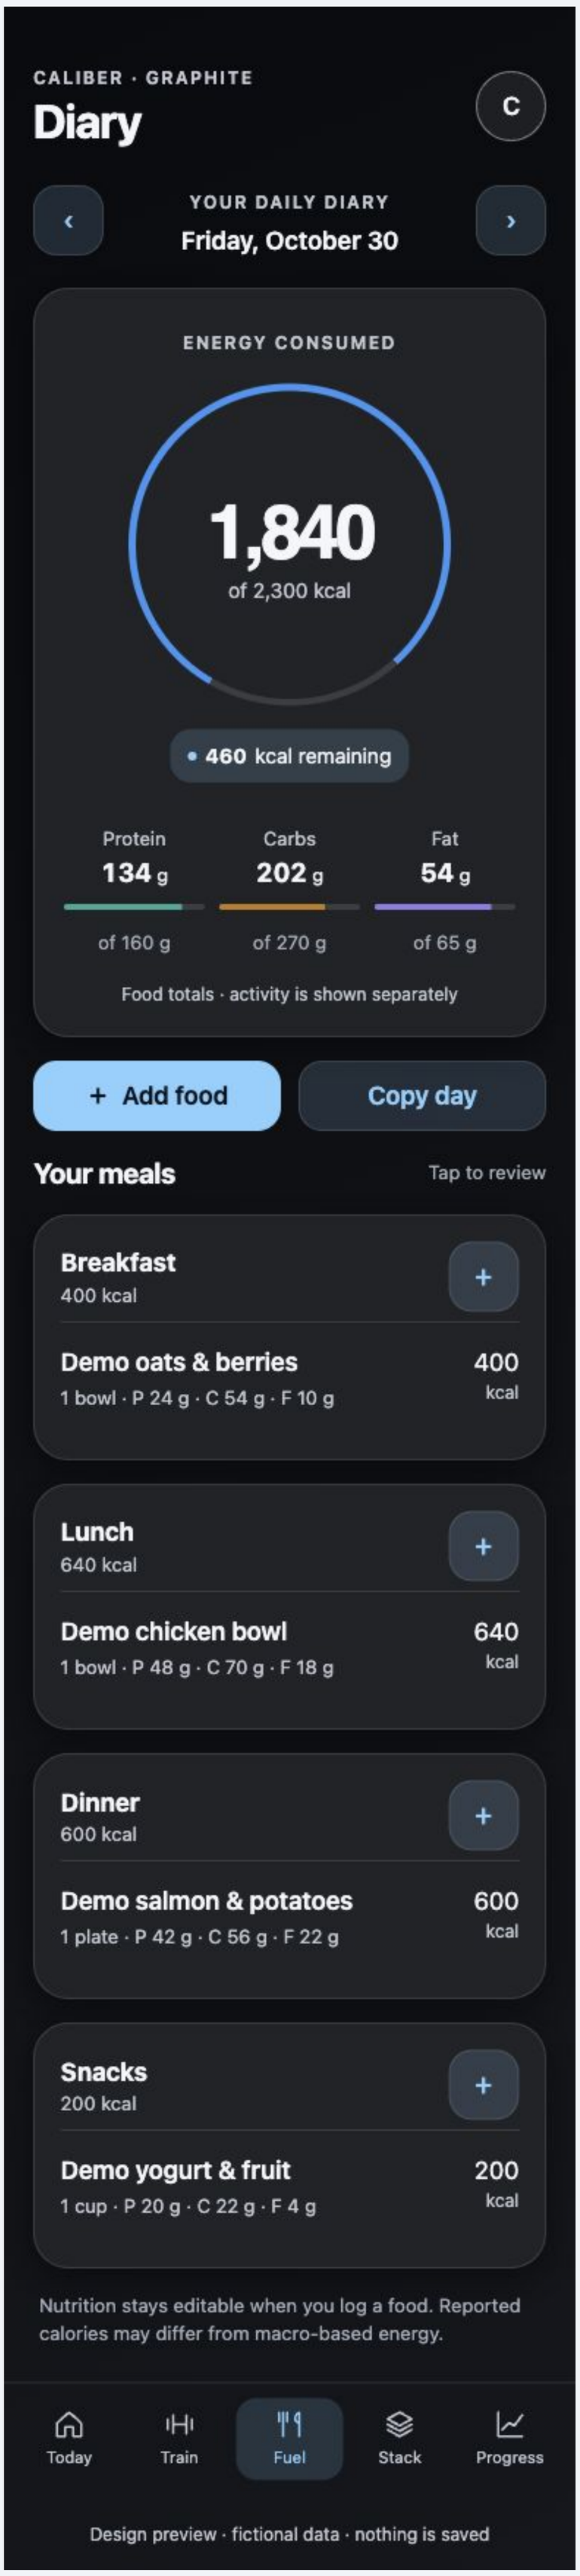

Next: native iPhone implementation and verification, then iPad/resizing layouts and broader light-mode beta. This book does not certify native accessibility, clinical accuracy or release readiness.

One calm overview.

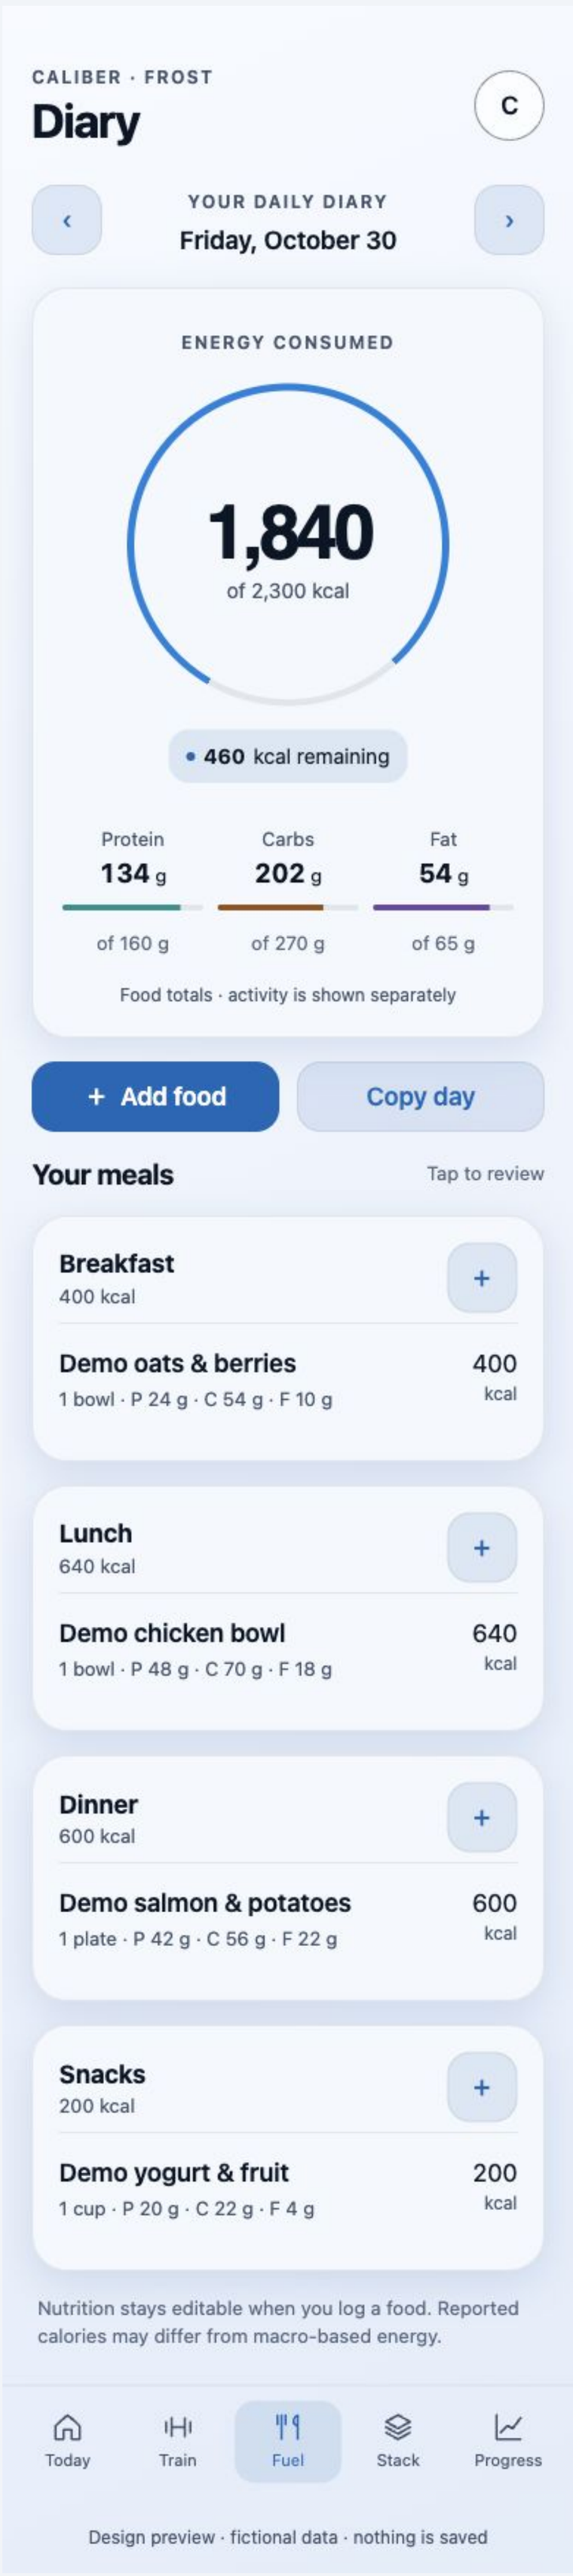

A centered energy summary, equal macro columns and meal cards that keep food names easy to scan.

Frost

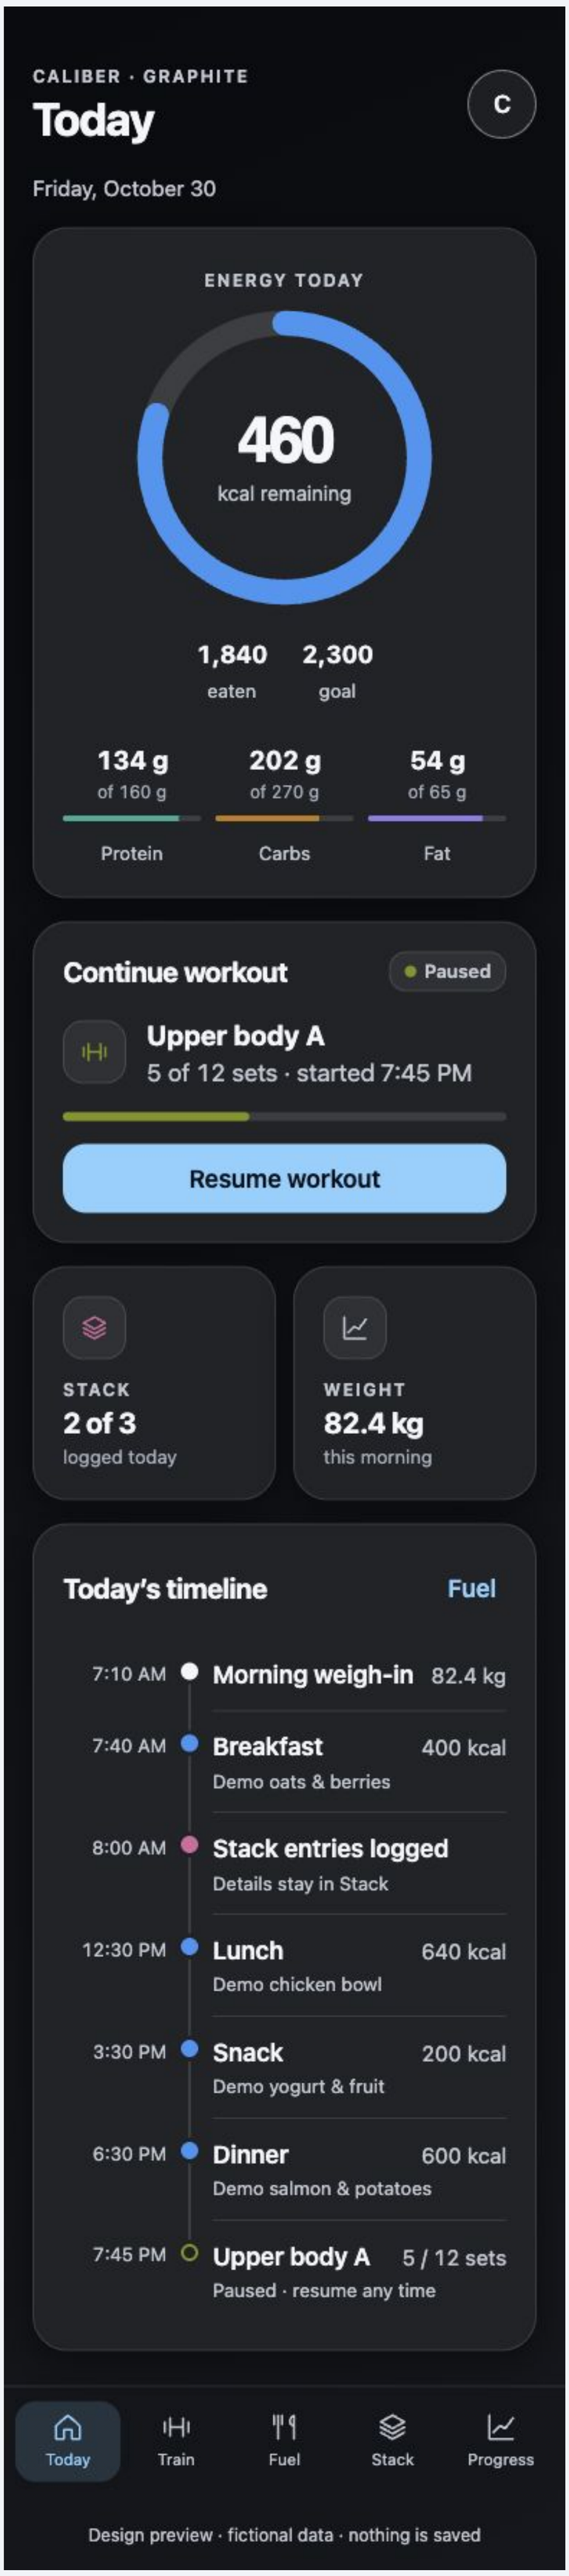

Your next action, clear.

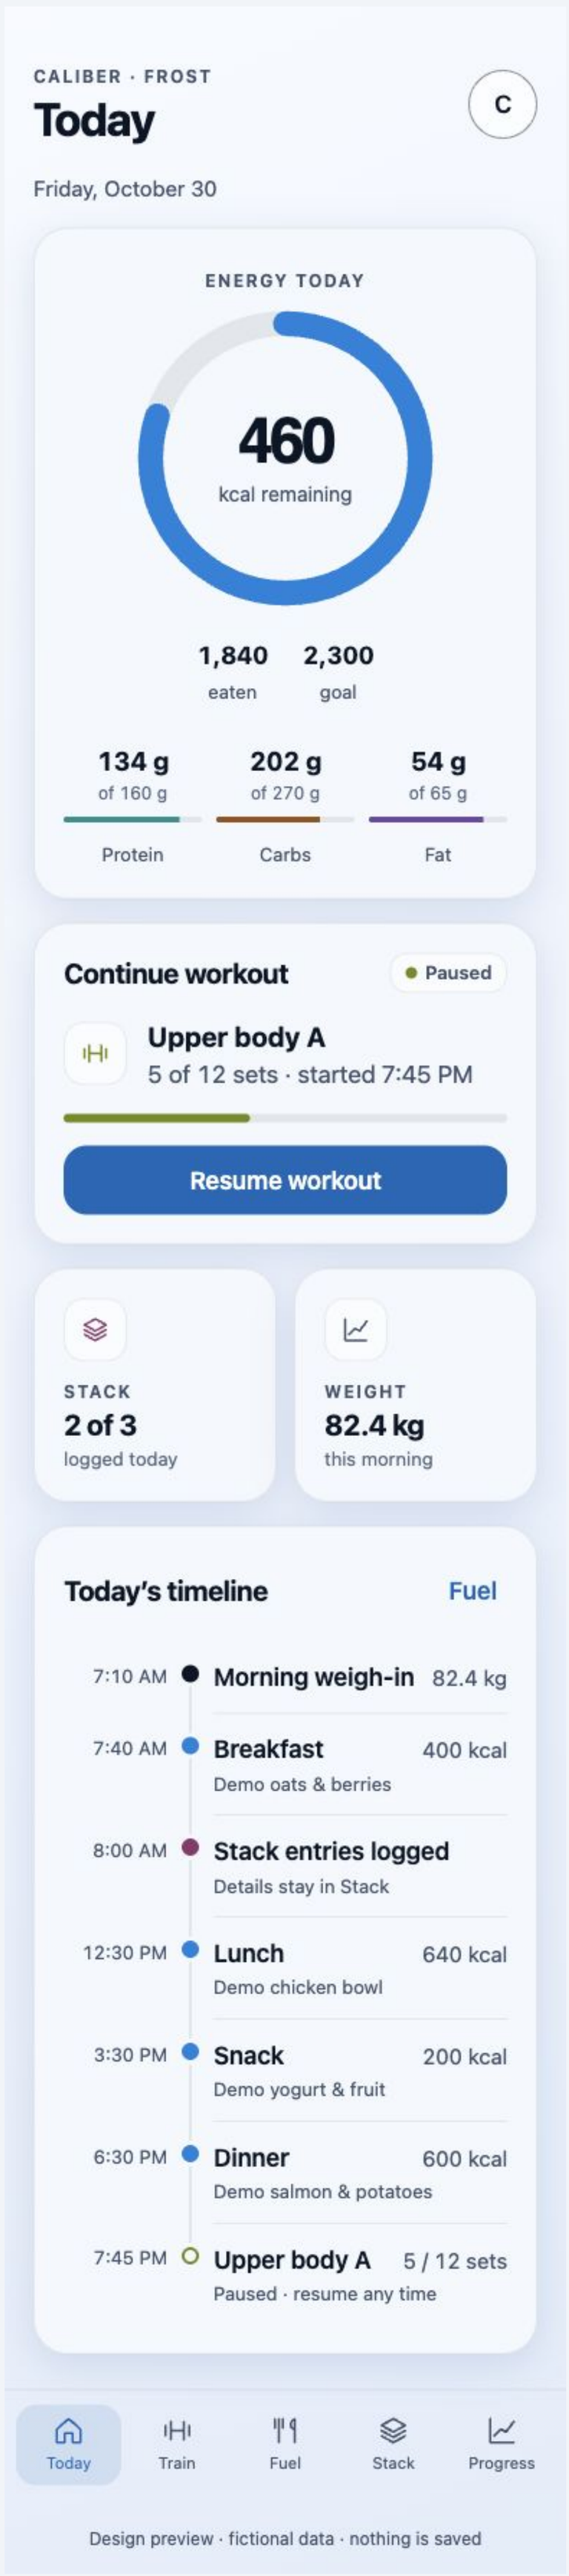

Nutrition, training and check-ins share one daily view. The hierarchy starts with the next useful action.

Rendered at 390 CSS px. Fictional data. Preview actions do not save.

Graphite

Frost

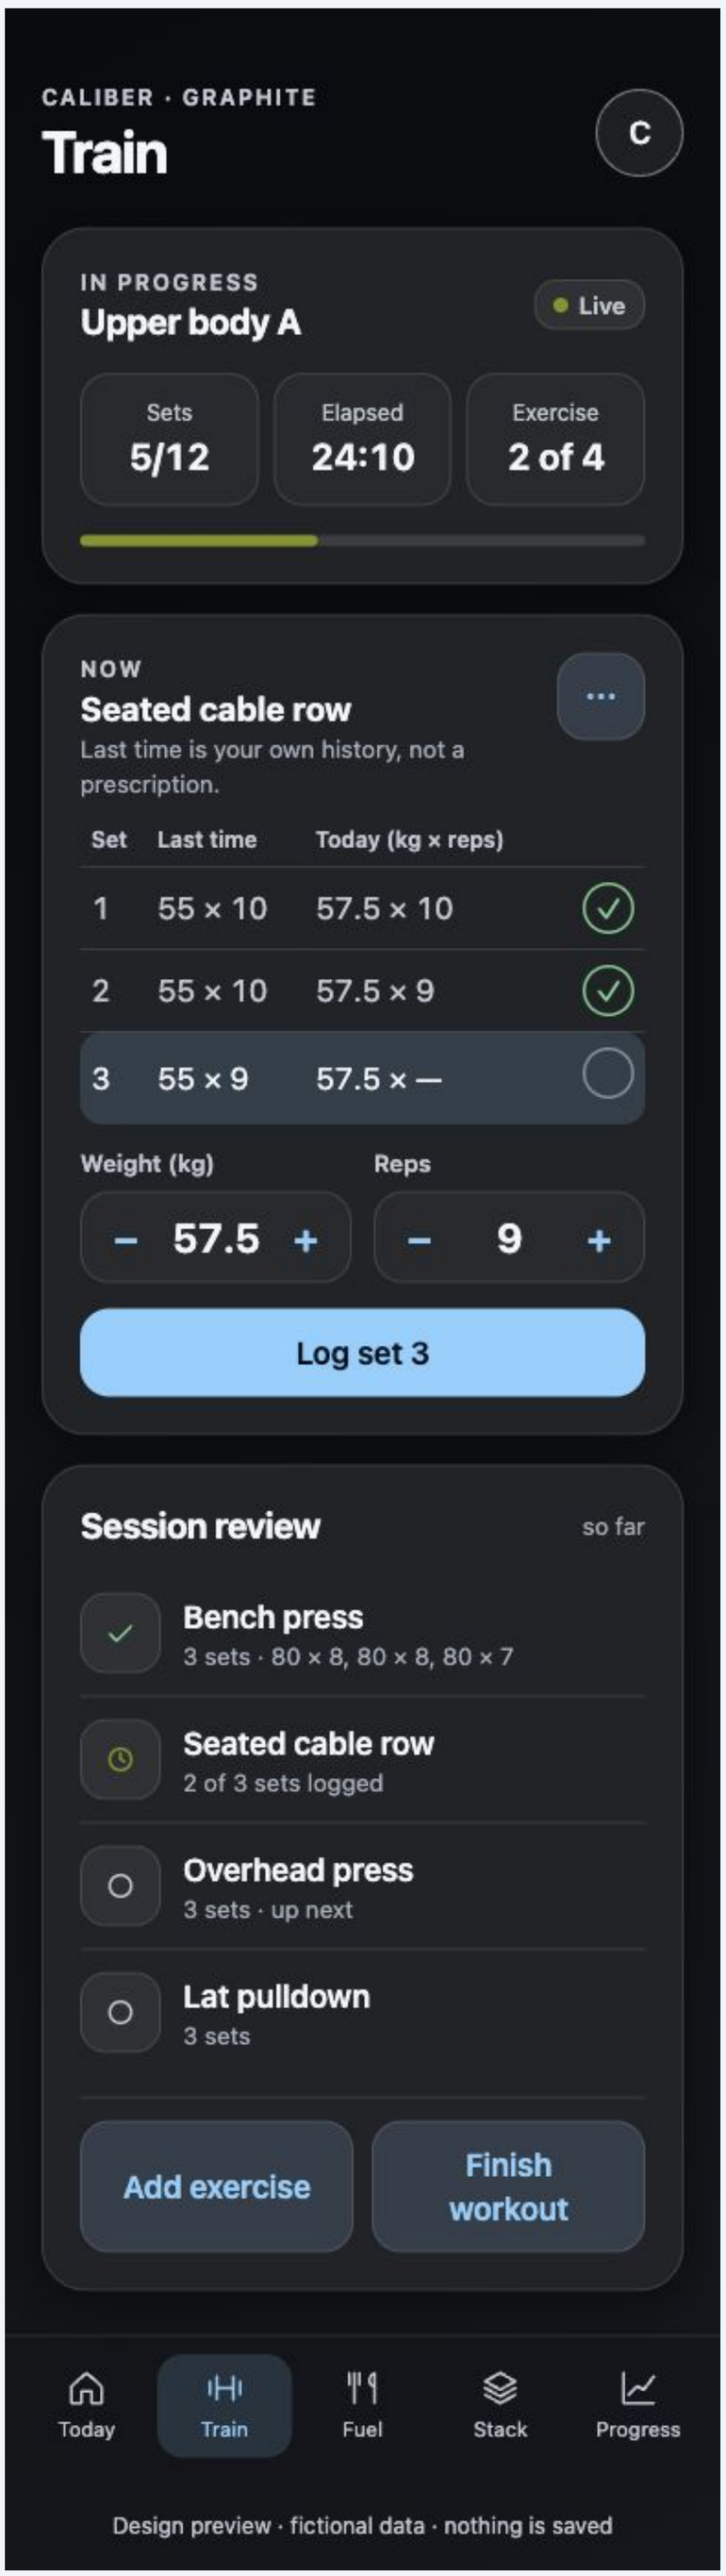

Built for the next set.

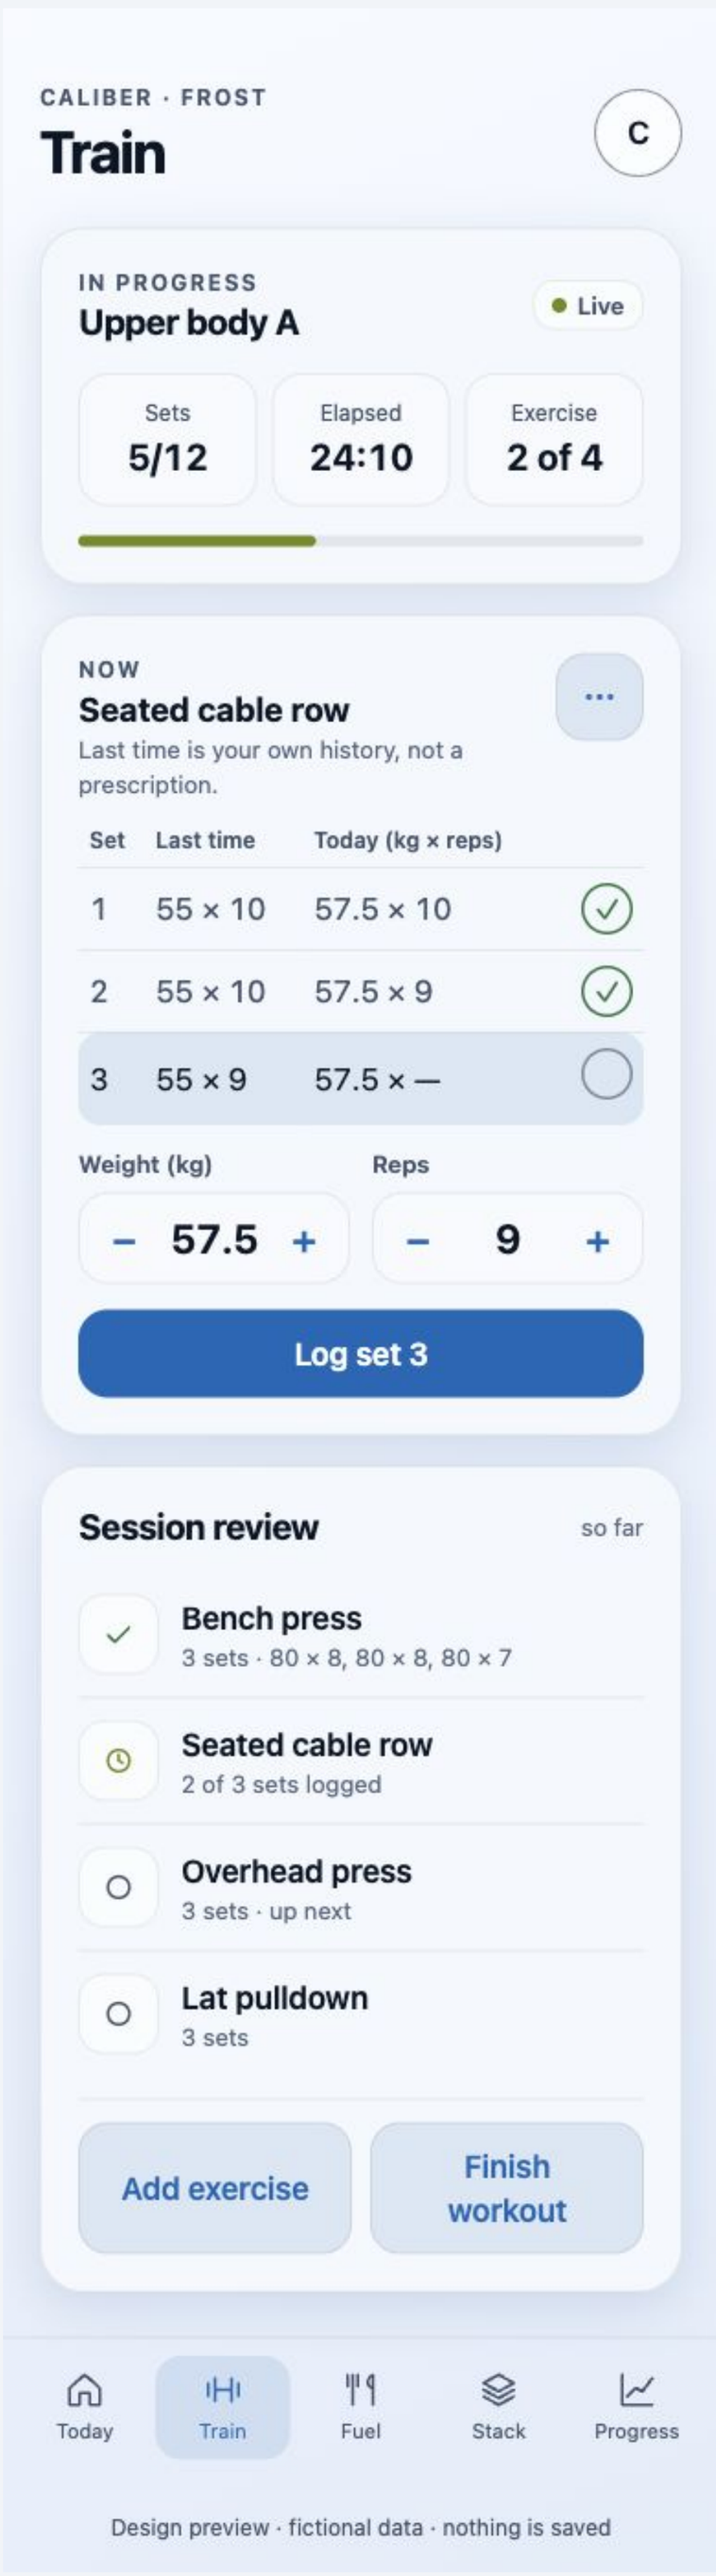

Saved workout context, readable set rows and generous controls. No invented training prescription.

Rendered at 390 CSS px. Fictional data. Preview actions do not save.

Graphite

Frost

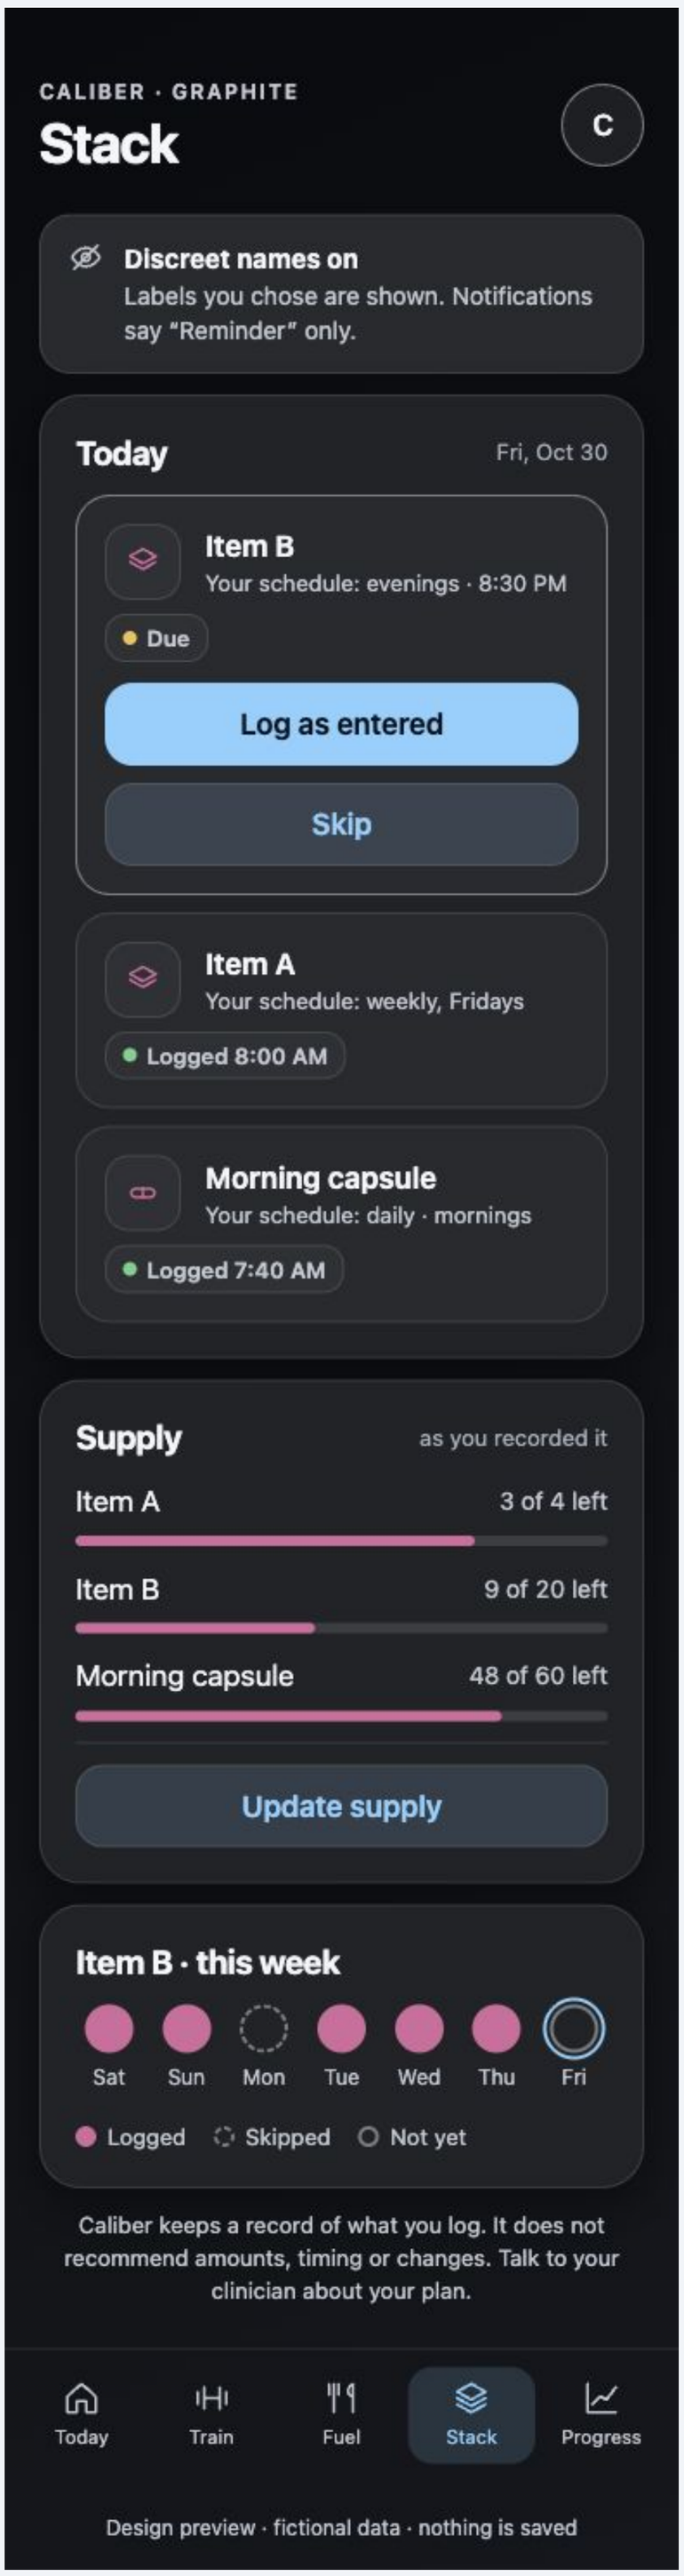

Private by default.

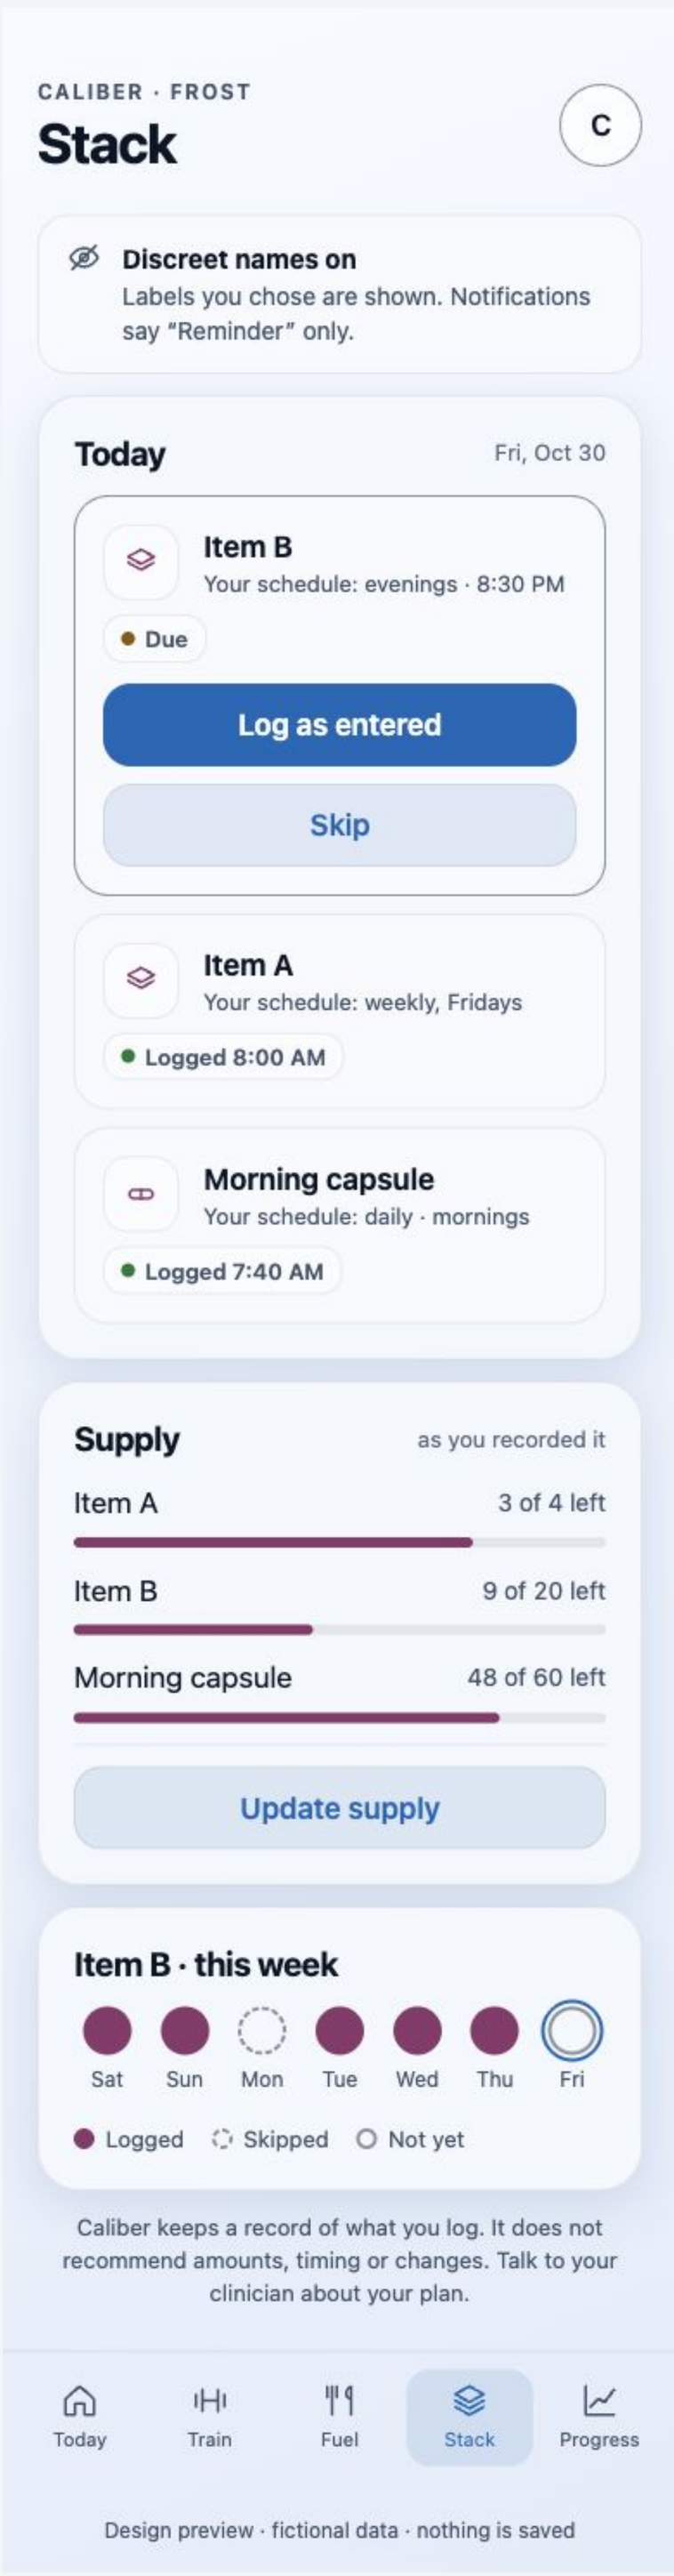

A discreet logbook with explicit locked and opted-out states. This design does not enable a dosage calculator.

Rendered at 390 CSS px. Fictional data. Preview actions do not save.

Graphite

Frost

Change over time.

A readable weight trend with a check-in timeline for photos and notes. Patterns do not imply causation.

Rendered at 390 CSS px. Fictional data. Preview actions do not save.
